

MELLANO & COMPANY

"Growing for you since 1925"

greens & foliageages

Israeli Ruscus

Reliable Quality

Greens & foliageages are more than just "filler" — they're the backbone of most floral arrangements. At Mellano & Company we're proud of our reputation as the most dependable source for clean, high-quality foliage. All year round we grow over a dozen different varieties, providing a reliable supply of the freshest greens you need most.

Just like our flowers, each foliage stem is graded to a stringent standard. All greens are bunched to a specified length, and many varieties are also bunched by stem count. And to ensure that you get exactly what you want, both custom and single-variety boxes are always available.
